This is the trip the Sjoa river is famous for, which suits all types of people! We paddle down calm stretches and through narrow canyons, admiring the beautiful scenery of the Heidal valley. The excitement builds as we drop into the classic rapids of the Sjoa river with names like "Gulfstream", "Heystacks", "Bye bye baby", Faukstad drop and many more.

After the trip we will return to our base where our sauna and hot-tub will be waiting for you.

Before you leave for the hotel coffee and our homemade cake will be served in our garden or inside, depending on the weather.

All gear like wetsuite, wetshoes, helmet and west is included.  
Bring your swimsuite.

Welcome!
